WORKSHEET / TOOL 07

The replication review

Type into the fields or print a copy for your next working session.

01 What transferred successfully?

Compare both operations using the same definitions for customer response, quality, contribution and support.

02 What required adaptation?

Which differences reflect local conditions? Which expose weak processes? What should become standard?

03 What still depends on exceptional effort?

List founder interventions, workarounds and support that would be costly to repeat. Who will document them?

04 What is the next commitment?

Expand, test again, redesign or pause? Set a pace your training and supply chain can sustain.
